Fukuoka Prefecture's Initiatives for "One Health Forest"

Satoru Takaki

Section Manager Technical Assistant, Forestry Promotion Division ,
Department of Agriculture, Forestry and Fisheries , Fukuoka Prefecture

We will introduce Fukuoka Prefecture's efforts in the "One Health Forest".

"One Health Forest" is a vast forest park with diverse forests, many animals, and various walking trails. The prefecture maintains this "One Health Forest" as a forest where you can feel the One Health philosophy that "the health of humans, animals, and the environment is one." We will introduce you to the one health guide and forest bathing tours that Fukuoka Prefecture is working on, along with the location and the characteristics of the forest, about the charm of this area.
